## **DETAILED ACTION**

- 1. This Office Action is response to Applicant's communications filed 08/11/2004.
- 2. Claims 1-20 are allowed.

## Allowable Subject Matter

3. The present application has been thoroughly reviewed. Upon searching a variety of databases, the examiner respectfully submits that claims 1-20 are allowed in light of the applicant's argument and in light of the prior of made record.

## **Reason For Allowance**

4. The following is an examiner's Statement of Reasons for Allowance:

The present invention is directed to a device and a method for filtering added information for receiving only required sections with table IDs stored in the memory for storing table IDs. The version number included in the received section is the same as the version number stored in the version memory of the table ID and determining

Application/Control Number: 09/482,926 Page 3

Art Unit: 2162

matching of the table ID with the table IDs stored in the memory for storing the version numbers.

The distinct features of the independent claims are that, "a size of the memory (M ver) for storing the version numbers of the sections being equivalent to:

M ver =  $N \times 8$  bits  $\times 2 = 16N$ 

Wherein N = a number of the table IDs which are version masked in the version memory (M ver)."

These distinct features in conjunction with other limitations of the independent and dependent claims 1-20 render them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
